Dear Site Evaluation Committee Members,

I would like to voice my opposition to the proposed route that the Northern Pass transmission lines will take through Greater Concord. I am an East Concord resident and frequently bicycle along Hoit, Sanborn, Snow Pond, Shaker and Oak Hill Roads. The existing transmission towers are an unfortunate presence but relatively innocuous. The proposed towers will be impossible to ignore and will be a blight on this delightfully rural section of Concord.

I urge you reject the proposed route.

Sincerely,
Charlie Bristol
Concord, NH
