### CommenterWords

Dear SEC:

I am a sixteen-year resident of Concord, NH, and am writing to express my strong and continued opposition to the Northern Pass project. As a resident of East Concord I am deeply concerned about the environmental impacts this project would have on habitat and the aesthetic and potential health impacts the towers and transmission lines would have on our community. Additionally, we would not even be the recipients of the power being generated. Please do not allow the project to go through!

Sincerely,

Jared A Rardin
