I'm a new hampshire resident and I don't like the fact that NH won't benefit this. Not to mention that these towers are going to destroy the scenery and environment. They would be better all underground. But even still, this is going to destroy Main St. in Plymouth. They're going to have to shut it down while they dig up the road for the wires, which is going to ruin many businesses there, like the restaurant that I work for. There are so many holes in this project. It's bad for business, its bad for people like me and my family, and it's going to do a ton of damage to New Hampshire.
