**Subject:** Opposition to Northern Pass

To the Site Evaluation Committee--

We are residents of Bethlehem and would like to express our deep opposition to the Northern Pass project. We feel that, if approved, this project--with its gigantic towers--would permanently scar the landscape and, especially in our part of the state, would destroy many scenic views which are so important to our North Country tourism industry. We also feel that the partial burial of the project (which would begin here in Bethlehem) is not the answer and would adversely impact businesses along the burial route with the disruptions the construction process would cause. We hope that the Committee will vote against this project and keep northern New Hampshire the beautiful, pristine landscape that it now is.
