VISIT SCENIC  
NEW HAMPSHIRE

To Members of the NH SEC:

I strongly oppose the Northern Pass project and do not want it in our beautiful state. This proposed project will blight the landscape, thereby affecting tourism, property values, and our economy.

80% of the 31 towns through which the project is proposed to run either passed a warrant article opposed to the project in a town meeting, interviewed at the SEC against the project, or both.

My town of Littleton has done both. I URGE you to recognize that this project is not good for our state, and NOT permit Northern Pass.

Thank you for your consideration.  
Patricia Killogh Littleton, N.H.
