

Northern Pass Citizen's Comment – **Opposing**

As a citizen of New Hampshire, I am opposing the Northern Pass project because: _____

- Not enough benefit to state of NH
- Other renewable sources (Solar + Wind) are available and cost competitive if you account for the cost of building Northern Pass
- Rather than cramming this project into the state it should be a thoughtful process that includes energy + telecommunications ^{and transportation} infrastructure and should utilize existing transportation and energy corridors. ~~and~~
All of this infrastructure should be buried to reduce maintenance and risk of terrorism or storms.
