

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: Why should we have to look at those ugly towers? Northern Pass has given many exceptions, where they'll bury their lines. Why is it NH is considering allowing them to permanently scar our land? Is our beautiful state less beautiful? Less Important? Northern Pass will get their lines south in the pursuit of bigger business. Please stand together, stand against hurting our state PERMANENTLY! Losing the beauty of our forests and towns. MAKE THEM BURY THE LINES!!! They will recoup their investment and we can continue to live in the most beautiful state in our country!
