Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: the disruption and destruction to the landscape has been opposed by the majority of the citizens of the state that live in the northern half of the state, as we enjoy, appreciate, and respect the value of our natural beauty. It not only translates into the economy related to tourism, but to the businesses, like in Plymouth, where plans by N. Pass is to tear up Main St. and create a detour that will greatly impact their customers shopping. Those businesses can not afford this loss of business.

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: as a life long
Granite Stater, I am extremely devoted to the beauty and
nature that surrounds us. Not only is it a true
necessity to maintain peace of mind by venturing into the wilderness,
but it is one of our most important economic resources. Our
prestige ecosystem in it's pure state brings millions to our state
every season of every year. Scarring it with heinous power
lines will only continuously drop our tourist revenue. As an environmental
engineer, I highly value renewable energy, although this project is →

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: I hate the sound of the power station - It's particularly loud on low-pressure days. I have been promised many times the sound will be covered when the company does that or this, but the sound only increases. It has been more than 40 years! Ironically, I cleared fields and built my house in 1968-1975 - one half mile from the nearest road. I made a commitment to this place before the power station came. I see two towers east of my fields and two to the south. They're annoying, but I can look away. Unfortunately I cannot so easily block my ears. My original commitment included solar electricity. I am completely off the grid, yet staring at and listening to that grid.

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: It is NOT in the
interest of New Hampshire citizens. Actually, I am not opposing
NP, but the complete line should be buried in the I-93
corridor. The way it is proposed now will destroy the Plymouth
downtown. The large towers will negatively impact our beautiful
state; tourism would definitely suffer; visiting, hiking, etc in
the summer and skiing in the winter. Storms have shown that
the towers can be toppled. Had the towers been up and the lines
come down during the late October 2017 storm, the suffering plus
economic loss would have been devastating. It doesn't make sense!

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: _____

NH is a beautiful state, small state and to put these towers all over the state and take away the beauty for states other than ours is a shame. No matter what you say NH is not going to benefit enough to ruin the beauty and tourism that this state has. Never mind the possible health damage down the road. Buy it!! or use CT River

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: this project runs contrary to our State Motto, "Live Free or Die."

with Northern Pass:

- our State's natural landscapes will NOT be free of unnatural mans.
- our residents will NOT feel free of Corporate \$\$ and influence, and in many communities, the presence of towers will be a permanent reminder.
- many of our local businesses and community centers will be severely impacted, including water and sewer systems

My heart breaks to think that there are 2 NHs - one for the wealthy HAVES and one for the HAVE NOTS - please DO NOT make this nightmare a reality!

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: *With all the Wind generating towers we have produce enough energy to suffice NH customers, along with all the solar fields being built on a daily basis. The 33 towers in Millsfield, Dummer, Errol, and Dixville Do not turn 24/7 because there is no need for the power produced.*

If Hydro is so Great? Why have we dismantled most of NH's Dams? Conn, NY, Mass, & RI should focus there energy on Wind & Solar in their own States

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: it impacts negatively many people.
 As a Plymouth, N.H. main street commercial building owner I am strongly opposed to Northern Pass. Digging up the full length of main street to lay cable for Northern Pass will sorely negatively impact businesses. Think about it - no parking, no customers!
 If Northern Pass must come to be as those people being paid off seem to believe, why not go down Rt #93 - state owned, nobody put out of business?
 If Plymouth's main street is to be torn up, perhaps it is time for those whose businesses will be threatened to invoke the N.H. state motto "Live Free or Die".

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: _____

I first came to Plymouth as a college student. I fell in love with the area for its downtown friendliness and beauty. I settled here raised a family and opened a business in Holderness. Running No. Pass through Plymouth would absolutely devastate this area and many many businesses and peoples livelihoods, memories and so much more.

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: There is a line in Harry Potter that Prof. Dumbledore says to Harry. "It is our choices, Harry, that makes us who we are." I have lived in Deerfield for 45 years. During that time, I have attended many town meetings, Committee meetings, etc. where we come together to try to make the best choices for our town, for our children. I feel strongly that No. Pass is not the right choice for our town or our state. It will leave a permanent scar on our environment, a constant reminder of our lack of foresight of better options for our energy needs. We can do better than No. Pass + we owe it to our children + grandchildren to do so.

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: I believe that
NH would be best served by investing in locally
generated power and not continuing to be dependent on
external sources of power. This would reduce our risk
of external manipulation and potential acts of terror
involving power infrastructure. We, as a state, need
to be more forward thinking about how we can meet
our power needs and commit to ~~other~~ renewable
sources which do not rely on HQ and thereby support their
unethical practices.

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: as a resident of
Northern NH, the N.P. proposes to bury the lines which will
pass our high school, elementary school, town services, downtown
Franklin. I will die in front of Town offices and fire department.
Needless to say this will impact our lives on a day to day basis for
an excessive lengthy time. There are so many homes and businesses
that are so close to the road that undoubtedly by this construction will
impact their property. The overhead line, will destroy the natural
beauty of the mountains that thousands of people will come to
view each year!

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: as a student
looking at possible colleges to attend, PSU is the most
practical option for me. However, the threat of the Northern
Pass is so harmful to our local college system as the
route falls right in our peacefully quaint town of Plymouth.
The NP will affect local businesses, ~~there are~~ many of which
college students are employees at and are our biggest consumers.
Please consider the perspective of a student that may not choose PSU because
of the NP's construction. We rely so much on the college system in our town.
Without them, our economy will pitfall.

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: of tourism in
our state. We have four seasons of visitors. How many of
them will want to go through torn-up roads, communities
full of construction, and other hassles to get to messed-up
scenery? ~~After that~~ They can go to Vermont or Maine
instead. After a few years, they will be out of the
habit of coming to New Hampshire for recreation.
That will have a long-term impact on the communities
in NH who benefit from tourist dollars, thus the
various sources of revenue to the state.

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: my family and I moved to the mountains of NH 2 years ago after falling in love with the pristine natural beauty of this area. We quickly fell deeply and madly in love with this community, its members, its small town businesses and its close-knit sense of service to those community members less fortunate than I. Northern Pass would mean no less than 2 years of upheaval in our tiny downtown area mostly of mom-and-pop businesses that would not survive such a devastating blow. Not to mention

Name: Jennifer Legier Town/City: Campton, NH Signature: [Signature]
the devastation to natural habitat by allowing lines thru delicate eco systems!

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: the project is of no long term benefit to NH and will be disruptive to our primary industry - tourism. The purpose is to provide imported energy to Southwest Connecticut, potentially displacing efficient gas fired plants in eastern MA. Construction will disrupt traffic and business through downtown Plymouth, again, likely providing no benefits to the community. Over the dam Hydro is not green energy, especially during the 1st 10 years-

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: _____

I moved to NH from KI because of the natural beauty & remoteness of the state. The thought of giant transmission towers interrupting the views & naturalness of the state is heart-breaking. Considering that the benefit to NH is minimal & the harm to the environment is max, there has to be some other alternative. Best wishes

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: I would like to note

That I am strongly opposed to NPT from beginning to end; the environmental devastation being visited upon the Canadian/Quebecois wilderness is unforgivable, including to the First Nation Peoples. That part of Quebec has been described as the "lungs of New England" and NPT proposes to take that capacity away. From an economic and life style point of view, NPT is simply NOT NECESSARY; Americans and other citizens of the "developed countries" (!) need to conserve much more of the energy we currently use/waste (as with so many other resources). There are LIMITS TO GROWTH and our profligate life-styles are rapidly despoiling our only blue planet home. Please do what is right here - say no to npt and yes to CONSERVATION.

***Rushed Comment* - from a true NH resident.**

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: It will be
a major disruption to local economies. Eversource has not
offered to compensate businesses that will lose substantial
revenue during construction of Northern Pass. Job creation
will be temporary. New Hampshire relies heavily on a
tourism economy^{as well}. Northern Pass would diminish the value
of our scenery, so less people will be interested in visiting.
Finally for now, wetlands are a major part of the environment -
incredibly valuable - and my understanding is that 6 million ft²
would be impacted by Northern Pass construction.

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because:

Dear Politicians,
As a lifetime citizen of N.H. and a strong opponent to the Northern Pass Project, I wish to inform the people who care, that The Eversource Co. of N.H. cannot be trusted. They have lied to the public on many occasions and cannot be trusted. I am an elderly woman who's electricity was shut off on Nov. 8th 2017 and I had a medical letter of hardship for many years and on the winter-protection plan, Eversource told me on Nov 7th that my electricity would be shut off. It was and still is? why?

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because:

We are a family that enjoy all manner of outdoor activities. The statewide project will ruin vistas & landscapes both up close & from a far. We are residents of Holderness - on a ridge - towers will ruin our view. The bulk of the economy of North country is tourism. Outrageous ^{& sad} that we would allow an outside entity to destroy ^{the} reason visitors come here, for short-term gain for a company. Our biz is in Ply & Campton. Teacing up the core of Ply. Village for an extended time will make daily biz difficult for us. For the small biz's that are successful but marginally so - it will be disruptive if not ruinous.

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: *There is no upside for New Hampshire's electrical customers. Almost all, if not all, the electricity will be passing through NH and going to southern New England. The project is a joint effort by two non-NH based ^{for profit} entities: Eversource and Hydro Quebec. The proposed plan and it's route will forever mar NH's scenic beauty and historic sites with overhead transmission towers. NH is a small state and these towers can not be avoided by anyone traveling from south to north, west to east, or back, throughout the state. Please do not ruin NH for the sake of those who do not have a stake in our future - Thank you.*

Northern Pass Citizen's Comment - Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: per the SCE Chairman Northern Pass is opposed 12-1 by those who have commented regarding this project.
We the people of NH who work here, raise our kids here, recreate here - WE do not wish this project to go through! Please listen to us. Why has there not been a state wide vote? I did not feel you are listening to us.

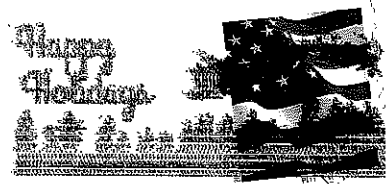

Reasons I oppose the Northern Pass Project: It is money driven; not interested in what's best for our state.

- destruction of aesthetic beauty of our state - tourism
- health concerns - impact on health of high voltage electricity on people & animals
- This is not Stewardship of our state lands
- Not green - need to look to future - wind, solar
- fake claims - electric bills will not go down by much, jobs will be temporary.
- weather concerns - High winds, ice, snow could result in damage to towers which could affect surrounding land
