Dear Pamela Monroe,

I am irate over the fact that this is even a topic of discussion! The idea that the Northern Pass would be a good idea for NH to allow is absurd. Destroying the ecosystem, devaluing properties, and creating an eyesore are just some of the negative affects the Northern Pass would have on NH. Why should the beautiful State of NH have to be the ones suffering for other New England States?? Never mind the fact, that most of the tourists coming to visit our beautiful state are from the South. Why would they want to take away from NH's beauty? I am NOT in support of this HORRIBLE plan and demand that my voice is heard.

Sincerely,
Ashley Luscher
