Dear Pamela Monroe,

I'm writing to ask you to reject the plans for the northern pass project. This is a time in our history when we need to be looking toward the future, not clinging to the past. Our world is rapidly changing due to the effects of climate change. Using old methods to create and transport energy and electricity are fueling the problem. We need new and innovate solutions that won't harm what little wilderness we have left.

Thank you.

Sincerely,
Bridget Crompton
