Dear Pamela Monroe,

I am writing to oppose Northern Pass. This project will permanently scar New Hampshire, hurting one of our greatest assets, our natural beauty. Also New Hampshire residents are expected to pay the costs of burying transmission lines IN QUEBEC! Under this proposal, Quebec's natural beauty is given priority and protected with our money, while New Hampshire's natural beauty is ignored and negatively affected.

Support the interests of traditional New Hampshire, its heritage and its residents, and do NOT support the demands of powerful out of state corporations.

Sincerely,
Edward Watts
