Dear Pamela Monroe,

I am just beside myself with grief imaging this forest and land ravaging Northern Pass project becoming a reality. New Hampshire citizens, including myself, have been loud, passionate and clear that we DO NOT want Northern Pass in our state! We want to protect, cherish, view, preserve and play on our land. The ancient NH forests were destroyed in the 1800's and then again in the 1930's by money-hungry interests who cared little about the destruction they causes to our ecosystem and to the spirit of our land and state. You CANNOT, as representatives of the people, allow this new threat to encroach and win. Say YES to our gorgeous land, say YES to our people, say YES to protecting our forests and ecosystems and say NO to Northern Pass!

Thank you!

Sincerely,  
Laurie A Couture
