December 15, 2017

Dear Pamela Monroe,

The SEC can approve Northern Pass only if it finds Northern Pass to be in the public interest. As a member of said public in New Hampshire I know that Northern Pass is not in my interest. The SEC must act in the public interest here in this state, not in the interest of out-of-state corporations. I live in a part of NH where the towers will not be far from my home, but the power will go far south of my household and leave us nothing but a scar across a lovely piece of landscape.

Sincerely,
Lucy Edwards
