Dear Pamela Monroe,

I do not understand how the SEC can possibly recommend approval of the NORTHERN PASS PROJECT! Any "employment opportunities" during construction would be TEMPORARY. After construction there will be NO JOBS FOR NH. This proposed project would cut a swath of UGLINESS through the most pristine portion of our beautiful state of New Hampshire and will WOULD affect the flow of TOURISM from out of state. No one wants to come look at huge power transmission lines supported by towers!! Burial of these lines would be just as bad. There would be total destruction of towns along the proposed route 3 corridor! The town of Plymouth would be destroyed!! PLEASE, IF YOU HAVE A FAIR SENSE OF RIGHT AND WRONG, PLEASE DO NOT APPROVE OF THIS PROJECT. IT IS NOT "FOR NEW HAMPSHIRE".

Sincerely,  
Margaret Currier
