Dear Pamela Monroe,

I oppose the Northern Pass project. NH residents are not being heard. As usual big business has the upper hand.

We live in a small state that relies heavily on tourism and the great outdoors. Unfair to homeowners along the transmission line. Power will be sent out of state and all the promises are just that. False promises. Jobs? Should I call all this fake news? This is the true fake news!!!
Please vote no and save our state.

Sincerely,
susan duffy
