Dear Pamela Monroe,

I have questions for you. Have you ever traveled to NH for a weekend in the mountains? To visit the restaurants, shops, ski, swim, hike? Simply to get away from the hustle and bustle? If so, please vote against Northern Pass. It will scar the beauty of the forests and mountains and habitat. Sight pollution. Noise pollution. Litter pollution (because you know those workers aren't going to do a 'carry in-carry out'. Tourism is a large part of NH. People come from all over the world to the White Mountains and other areas. People don't want to see wires on poles, scarred hillsides where underground utilities are, and more. Tourism will change. Landscape will change. Habitat will change. And, the beauty will change. Please vote no.

Sincerely,  
Elizabeth Dionne
