Dear Pamela Monroe,

PLEASE!! There is NO advantage to citizens of NH. Northern Pass admits there will be adverse impact in many ways, especially our environment! There will be no cost reduction for any of us! What is the point? My bills are more than high enough...and history tells me that my bills will increase with so-called improvements...but the actual facts [paying for Canada's burial of lines] 'guarantees' the overall budget cost prevents any possibility of less cost.

Sincerely,  
Karyn Hannigan
