December 16, 2017

Dear Pamela Monroe,

I don't want New Hampshire to be defaced by a giant extension cord bringing power to Massachusetts and Connecticut.

The record is now clear. Northern Pass will hurt tourism, our second largest industry. It will trample on the private property rights. It will rob future generations of the last remaining wilderness in New Hampshire. The jobs they claim are temporary. This will only harm New Hampshire.

Sincerely,
Margaret Rangnow
