Dear Pamela Monroe,

There is absolutely NO need for NORTHERN PASS to send the energy and power to Ma & CT, find a different way around and NOT thru NH. The Wind mills that exist now in Groton and those other towns in that area, they were told all kinds of things, basically A LOT OF LIES. As the things they were promised are not being done.

Hydro Quebec can SHOVE IT.....NH DOES NOT WANT NORTHERN PASS, YOUR UGLY WIND MILLS.
STOP...STOP...STOP

We have one of the prettiest states in New England, and these UGLY Ginormous Wind Mills are a disgrace to our beautiful scenic state.
NO NORTHERN PASS EVER!!!!
STOP STOP STOP
NO NO NO

Sincerely,
Stephanie Chandler
