Dear Pamela Monroe,

Northern Pass has no benefit to our state! We do not need it. We don't want it! Destroying our beautiful White Mountains and views for profit is unthinkable.. Tourism will suffer. Ecosystems in "right of way" swath will suffer. Wildlife will be disrupted and the peace and beauty of New Hampshire will be permanently taken away. We fly scenic flights in NH and showcase our beautiful lakes and mountains to tourists and visitors from everywhere around the world. They come HERE to experience the beauty and spectacular views NH offers. New Hampshire is special. Unspoiled. Self sufficient. We need to do our part to remain this way and say NO to Northern Pass!

Our website is www.seaplanetours.net and we live in New Hampton apparently less than half of mile of a projected tower location!

Sincerely,
Colleen French
