December 17, 2017

Dear Pamela Monroe,

I am writing to ask you to reject the northern pass. This project will result in very little benefit to Granite states. Moreover, it comes at enormous cost to our most valuable asset, our natural landscape. We need to focus on renewable energy sources. A vote to allow northern pass is a vote to put money in the pockets of these utilities, not a vote to protect the interests of the citizens of New Hampshire.

Sincerely,
Kimberly Kirkland
