December 17, 2017

Dear Pamela Monroe,

I oppose Northern Pass because don't want New Hampshire to be defaced by a giant extension cord bringing power to Massachusetts and Connecticut.

The record is clear that Northern Pass will hurt tourism, our second largest industry. It will hurt small businesses in my town of Plymouth, as well as others along the proposed route. It will trample on the private property rights. It will rob future generations of the last remaining wilderness in New Hampshire.

The SEC can approve Northern Pass only if it finds Northern Pass to be in the public interest. I am the public. Northern Pass is not in my interest. The SEC must act in my interest, not in the interest of out-of-state corporations.

Sincerely,  
Valerie Scarborough
