### CommenterWords

The Northern pass is a selfish propositions it will ruin spectacular views that make New Hampshire New Hampshire. Taking away tourism dollars for our state.  
Ruining property values for many homeowners in New Hampshire while ruining individual properties land.  
The "jobs" that will be created by Northern pass are temporary and highly skilled there is no long term benefit.  
There is no saving for the people of New Hampshire our bills will not be reduced. The savings are heading for Massachusetts.  
For the love of my state, my parents and the people of New Hampshire no Northern Pass.
