Dear Pamela Monroe,

I absolutely oppose Northern Pass. Please do not allow this project to go forward, it will be a disaster for NH and will only benefit other states and the companies involved. The benefits to NH will be small and short term only. It is clear that Northern Pass will hurt tourism, our second largest industry. It will trample on the private property rights. It will rob future generations of the last remaining wilderness in New Hampshire. Please Please Please Please Please do not allow this project to go forward do irreparable damage to our beautiful and great state that is such a wonderful place to live work & visit.

Thank you for taking my views into consideration

Sincerely,
Charles Arnold
