Dear Pamela Monroe,

Our beautiful state, which depends on an economy of tourism is going to lose the thousands of people who come to NH for its natural beauty, gorgeous mountain views, woods, lakes and even roads with pristine views. For what? Profit for some, but not for most who live here. The Northern Pass will rape our state and in the end, cause us to carry even more financial and emotional turmoil. Anyone who advocates for this must be motivated by profit. If we don't begin to view ourselves as caregivers of the place we cherish, we will pay for it dearly.....we will have given away a gift so precious that we can never regain.....one of the most beautiful states in America.

Sincerely,
Cynthia Moon
