Dear Pamela Monroe,

My husband and I know the facts and NP will provide nothing for NH,except maybe monetarily for Franklin and Deerfield. Any new jobs would be temporary. It is going to destroy NH's appearance and hurt its tourism economy. If done properly in the existing power line right of way burying the entire line ould be an acceptable compromise.Underground would still provide profit for the owners, However, it is our heartfelt feeling that no company should be making profit at the expence of our beautiful state.

Sincerely,

Charlotte aand Charles Swanson
