Dear Pamela Monroe,

The Northern Pass will do NOTHING for NH except tear up it's countryside, ruin forest areas, destroy animal habitat, and, oh yes, put \$ in the pockets for a very few laborers for a very short time. Period. There is no benefit that is worth the destruction. The people of MA already hog power, resources, taxes, and land of their own, for the benefit of few. Why allow them to "shove it to us" so they can hog more with no benefit to us! It is just plain abhorrent. The one an only lasting benefit is to the commercial power company, which they o not need to survive. We NEED our land, our resources, our peace, our towns and cities, our line free wilderness areas. We live here for the way of life, NOT for being a conduit so MA residents can live

We all know who WANTS this power line to go through NH an destroy it. the greedy, "haves" of this country, not the people who truly love it. Leave us alone!

Sincerely,
Jane Twitchll
