Dear Pamela Monroe,

I'm involved with a very important horse rescue to prevent this breed extinction. They had a great place in New Ipswich NH. They were about a mile from where the pipeline would go thus fearful of potential accidents (and they DO happen so much for your promise of safety) and affects on the horses. They felt they had to move the ponies/barn as much as that place was perfect for them. They put in a lot of hard work but felt they had to find another place to protect their ponies. I don't want a pipeline to go through our beautiful state it would ruin our pristine state. You are all about big Bucks and not the environment or us residents. No No No!!!! Disgustingly,
Lori Bartashevich

Very concerned and disgusted
