The people have said they do not want this Northern Pass. We have fought to keep it out over and over and continue to fight and to say NO! This is another example of the corrupt corporate greed trying to once again take what is not theirs- our natural beauty, the animals that live their, families, homes, traditions all for MONEY. You cannot buy what you are taking away. You cannot repay these families their homes and their histories. Please stop Northern Pass- forever and once and for all. It is not what the people want for NH!
