---

Dear Ms. Monroe, It has only just come to my attention that today is the last day for public comment on Northern Pass for the Site Evaluation Committee. I would like to register STRONG opposition to this multi flawed project. I cannot believe NH can be beguiled into accepting such a blight on its landscape with little or no benefit to NH residents! There are many alternative proposals which can bring electricity to southern New England with no where near the kind of negative impact posed by Northern Pass. This proposal is fueled by corporate greed: unwillingness to bury fully the lines and unwillingness to cooperate with other carriers, all at the cost to the NH public who will bear the economic brunt of such despoiling of New Hampshire's landscape, a landscape which is key to its tourist industry and all the business that flows from that. I urge the SEC to stand up for the people of NH and oppose this unjustified corporate land grab! Sincerely, Ann W. Hackl
