

Northern Pass Citizen's Comment – Opposing

As a citizen of New Hampshire, I am opposing the Northern Pass project because: Time + time again
EVERSOURCE proves to me that they cannot be trusted. I say
this because the recent class action lawsuit claiming they
are not being fair with the flow of power through the
transmission lines to keep the prices to their advantage
How can the NH Citizens get a fair deal with EVERSOURCE
if they are looking to make more money instead of
realizing there are other options being proposed that
are better to bring the same amount of power south.
