Please listen to the people of New Hampshire, who care about the remarkable beauty of this state, and who live here hoping to live healthy. To all who will be making the final decision, please don't sell us out! I moved here 30 years ago, believing words I'd heard from my father while growing up. Although we lived in MA, he often said, "New Hampshire is the best state." His words have rung true until now. But, if Northern Pass is allowed, a once truly wonderful and daring state will have succumbed..will be no longer.
