Dear Pamela Monroe,

I am opposed to Northern Pass for the following reasons. I live in New Hampshire because of the gorgeous scenery and sense of unspoiled nature that still exists. I am a retiree and plan on continuing to spend time hiking and snowshoeing in the White Mountains. I am concerned that the huge towers that will be built by Northern Pass will be a major eyesore. It seems like an unreasonable price to pay to bring power to other states. There just will not be enough benefit to NH citizens.

I live in Nottingham, but a mile down the road from the Deerfield power station. My understanding is that the existing power station will be greatly expanded or another will be added. Again, an eyesore in an otherwise pastoral setting, and very little benefit to us. I am more in favor of putting effort and money into developing alternative forms of power such as wind farms and solar.

Thank you for your attention. I hope that the people who live in NH and will be affected by this unwelcome plan will be listened to.

Sincerely,
Christine Doyle
