Dear SEC Members,

It pains me to picture our beautiful landscape destroyed by the Northern Pass towers. I am opposed to Northern Pass. I believe it will destroy our land and ecosystems, our beautiful scenery, our tourism economy, disrupt the lives of NH citizens for years to come. This is not in the best interest of the people of New Hampshire because it will only temporarily supply jobs. Please take the serious destruction this project will bring to NH into consideration. Please oppose this project!!

Thank you,
