SEC Docket	2015-06 Northern Pass Transmission - Eversource
Commenter Name	Christopher Schul
Tilton	Ashland
Date Received	12-20-2017

Commenter Words

We can't have this happen. These power lines are going to be right out my back window. We know that any shut down of our local communities will destroy the small businesses. My love one and I are trying to start up our own business that will promote grow in the local community, but northern pass threatens our well being.

Mass had many chances to build renewable power sources in their states in the past. However, their rich blocked these projects. Why does NH have to suffer for their bad decisions?
