The northern pass will ruin this state. I grew up in beautiful Pittsburg NH. My family owned a small business that was based on tourism like the other restaurants in town. It is a shame that northern pass would like to pollute our land and put up poisonous towers. NH does not want. NH does not need. They think they can get away with eminent domain by using the highways which is also very wrong. This project does not benefit any one in the state of NH. I am not for northern pass!
