Dear Pamela Monroe,

Northern Pass IS NOT GOOD FOR NH, on so many levels. The environment will be forever compromised. The tourist business will suffer, who wants to come and see these ugly towers. The jobs created are temporary and few. Why should NH pay the price for someone else's profit? The electric prices haven't gone down, we all know who will pay for this travesty, the taxpayers of NH. We the people of NH DO NOT WANT OR NEED THIS, Please stop this nightmare now !!! thank you for your time and consideration.

Sincerely,  
Holly Gray
