Dear Pamela Monroe,

There is no good reason to allow the Northern Pass project to be approved or built. We are in the middle of having solar and wind power everywhere. The states needing power are free to develop their own power systems. This will allow New Hampshire to keep its beauty and not be host to such a mess. Both visually and from corporate greed/ liars. Please don't sell our state to these people. They do not live or work here.

Sincerely,
Robert Noyes
