This is outrageous! It doesn't serve nh. It affects our primary resource tourism. It defaces our state it benefits few and doesn't even serve nh it's mass Conn NY. 190 million of lobbying and not a shovelful of dirt turned. Why? Likely corruption. Bury it would be cheaper if they used 190 million to bury it it only benefits a few union workers some temp work and then nothing but unsightly towers three times the size of existing. Bottom line is WE THE PEOPLE HAVE SPOKEN! Why isn't that good enough?
