I oppose the northern pass because northern New Hampshire has some of the most beautiful land for hundreds of miles. I choose this place to call my home because of the beauty and the quiet. Building towers for other people's power needs and putting them right down the middle of some of the most beautiful landscape in the north east seems to be a waste of not only the environment but for all the people who worked hard to make this area wild and keep it that way for so many years. Please reconsider, we can already see enough of this man made nonsense from the mountain tops.
