Dear SEC Members,

I am opposed to Northern Pass. I believe it will destroy our land and ecosystems, our beautiful scenery, our tourism economy, disrupt the lives of NH citizens for years to come. We must preserve this beauty. It is why so many of us reside here. This is not in the best interest of the people of New Hampshire. Please take the serious destruction this project will bring to NH into consideration. It is your duty abide by the people's wishes and oppose this project.

Thank you,
Karen Price
