Say NO to this disastrous project. I know many people who are seriously talking about moving out of State if it goes through. It will ruin their property value, effect their businesses and discourage Tourism throughout the impacted towns.

All of you know the "jobs" created are temporary and this project will ultimately benefit southern New England, NOT NEW HAMPSHIRE. If your pockets have been lined by the companies who are part of this project, we WILL find out, and we WILL hold you accountable. Your decision will forever have an impact this beautiful State. What's it going to be? And how often will you be looking over your shoulder because you sided with Corporate greed? Stand firm, stand up or what is right, stand up for the people you represent, STAND UP FOR NEW HAMPSHIRE!!!
