To scar the White Mountains with this huge project will not only hurt property values but reduce tourism to the area affected. Tourism as well as property taxes Helps keep New Hampshire a desirable place to live and visit. My wife and I bought vacation property in New Hampshire years ago with the future goal of retiring permanently there. If this goes through we will have to consider selling and retiring elsewhere.

From those I have spoken to that live in the Northern Pass projected path are against it. Very little benefit will come to NH residents from this.

Stop Northern Pass
