I lived in Groveton NH for 18 years and I have owned property in North Stratford for 28 years . I have played in these mountains , hunted in these mountains and worked in these mountains . They are beautiful to all just the way they are . Big money go home and ruin your own mountains . These jobs that you advertise are just temporary and the rate cuts to NH people are a joke . All we will be left with is a very large ugly scar down the state .Bury the whole line or go to another state .Please do not ruin our state for the sake of profit. KIM Wiles
