DateReceived	12-22-2017

CommenterWords

There are so many reasons this is bad for NH, but personally, Northern Pass is putting transmission towers literally 30 feet from our front door. This is going to destroy our lives. When we asked them to buy us out, let us move away from their destruction of our land, we were told we were not a large enough priority. We are older people, generally considered poor (lower on the economic scale), and powerless to prevent these men from grabbing our property away from us. We've been here nearly 40 years. Please don't allow them to take this from us.
S. J. Angus, New Hampton NH
