NPT – Supplemental PFT

April 17, 2017

Page 2

With regard to the Supplemental Pre-Filed Testimony of Julia Frayer, the Applicants have enclosed a redacted version of the “Rebuttal Report on Electricity Market Impacts and Local Economic Benefits associated with the proposed Northern Pass Transmission Project”. The redactions to the Report were made in compliance with the Presiding Officer’s May 25, 2016 Order on Motion for Protective Order and Confidential Treatment and December 13, 2016 Order on Applicants’ Further Motion for Confidential Treatment in order to protect information that if publicly disclosed would place Northern Pass Transmission LLC at a business disadvantage relative to its competitors in the wholesale electric marketplace.

Un-redacted versions of the Rebuttal Report will be provided separately to the Site Evaluation Committee, Counsel for the Public, and parties to the proceeding pursuant to the protective orders issued in this proceeding, and subject to individual confidentiality agreements. Included with the Rebuttal Report will be a confidential Excel workbook entitled “Indicative MOPR Analysis”.

The Applicants will also make the supplemental testimony and related materials available on the NPT ShareFile Site. Please contact me directly should you have any questions.

Regards,

Adam M. Dumville
