**Subject:** Kinder Morgan SEC meetings

I want to express my outrage about the Kinder Morgan presentations that I attended on Wednesday night in Rindge and on Thursday night in Milford. I am disgusted by the presentation of deceitful information that was presented at both meetings. I have studied this pipeline and know that what I heard is not accurate information. It is an advertisement of sorts; a hard sell of what wonders this pipeline will deliver. I am appalled at the lack of transparency in their presentation as well as the deliberate skirting of the questions that the audience wrote on index cards. The propaganda level was at an ultimate level. They should be ashamed and held accountable.

The lack of attendance at these events reflects the level of frustration people face when they are forced to witness Kinder Morgan's "dog and pony" shows. It is exasperating to sit through these things!

Please add my email address to your list of people who wish to receive all information pertaining to the NED pipeline project. Thank you for your time.

Sincerely,  
Kathleen Gauvin
