

NHSEC

The Clean Water Act Section 303(d) Program is intended to protect our aquifers and watershed.

Our existing clean fresh water supplies are essential to our existence. We have no other fresh water sources available to our rural neighborhoods.

The Clean Water Act Section 303(d) Program includes a 'Protection Goal'. The intent of the Protection Goal is to encourage a more systematic consideration of management actions to "prevent impairments in healthy waters (i.e., unimpaired waters) in order to maintain water quality or protect existing uses or high quality waters."

You have a moral duty to uphold the goals of the Clean Water Act Section 303(d) Program and reject the pipeline.

Another reason to oppose NED.

Thank you
