

Pamela Monroe
NHSEC

Did you know that 850 New Ipswich residents signed a petition requiring our reticent Board of Selectmen to officially oppose NED? 850 is about how many residents typically turn out for a National Election!

We understand that the State does not allow for direct, American-style democratic participation in the petrochemical decisions that occur here but you must regard that Kinder Morgan's will opposes that of a clear majority. Since no one allows us a vote to govern our own destiny, you must speak for us, please deny NED.

Thank you

Paul Stevens
