**To:** Monroe, Pamela  
**Subject:** SEC Should File for Intervenor Status

January 6, 2016

Ms. Monroe,

My name is Albert Lefebvre and I would urge the SEC to file a motion to intervene in the Northeast Energy Direct FERC docket CP16-21-000.

Section IV of NH Section 162-H:10-b of SEC Rules concerning Siting of High Pressure Gas Pipelines; Rulemaking; Intervention states "The committee shall consider intervention in Federal Energy Regulatory Commission proceedings involving the siting of high pressure gas pipelines in order to protect the interest of the state of New Hampshire.

Intervention does not have to mean support or opposition for any particular pipeline, but will ensure the state agencies have a hand in the matter. Please file a motion to intervene.

Thank you,

Albert C. Lefebvre  
Rindge NH
